

Breathe With Me

Jimi Renfro

Verse 1

Let me change you
How you get so turned around
Don't let them rearrange you
Just who beat you down

Dead reflections in your
Used to be shining eyes
Stay with me a while
Breathe with me

Chorus 1

A change is gonna come
A change is gonna come for you
Not but trying to change yourself
But by becoming aware (of) what's not working out

Verse 2

So let's kill your doubt
It's all I wanna talk about
I'm seeing only part of
Who you are

Let's retrieve your wasted love
Shake off the past and rise above
This drama's just dragging you down
It's dragging you down

Chorus 2

A change is gonna come ...
