

You Could Have Stayed

Julie Prior

Verse 1

Too bad - life's like a sitcom,
Full of drama and pain
Come back - money and medicine
Nothing can heal me now
No matter life is so cruel
I should have known you'd go
She was all that I'd never be
Stunning, clever and cool

Chorus 1

Darling – you could have stayed forever
Missing you now,
Missing – all of the passion and love
Like the summer sun
Love is cold and gone

Verse 2

So good - that's how it first began
Full of joy and fun
Stay mine - here in my arms
Walking the future road
Everywhere always with you
Always together in love
That is all that I wanted from you
Together forever as one

Chorus 2

Darling...

Verse 3

Real life - you walked out of mine,
Into her duty and fame
You've gone - left me alone
Walking the single track road
Alone for me to be me
Open and honest and free
My life recovered from your arms
Now is time to be me

Chorus 3

Darling...
